

## YOU HAVE BEEN REFERRED TO A PROSTHODONTIST

---

A Prosthodontist is a dentist who has returned to graduate school for three years of additional training in the services of crowns (caps), fixed partial dentures, and the diagnosis and treatment of other numerous oral and maxillo-facial diseases, such as traumatic accidents, cancer, birth defects and Temporomandibular Joint (TMJ) disorders.

Attention is given to numerous small details which provide the necessary ingredients for successful treatment. Goals in treatment always include emphasis on three things: comfort, function for health and well being, and a pleasant appearance.

## YOUR FIRST APPOINTMENT

---

We are interested and want to know what your dental concerns are, and which ones are most important to you. To arrive at a definitive plan of treatment, one which will resolve your problems, will require diagnostic records.

Upon completion of the diagnostic records, a consultation will be arranged for you, at which time the diagnostic findings will be presented to you with alternate plans of treatment for its correction.

## THANK YOU

---

We thank you for the confidence you have placed in us. We are complimented that you have chosen us. You may rest assured that we will do everything in our power to make your visits to our office as pleasant as possible.

In any doctor-patient relationship, communication and rapport is necessary. Therefore, if you have any questions or positive feeling that things should be done differently, we welcome the opportunity to answer your questions or discuss any matters with you.

## DR. SHARITHA UCHIL, B.D.S., M.S.D.

Dr. Sharitha Uchil is a trained Prosthodontist with several years of experience. Dr. Uchil's key interest in prosthetic dentistry led her to University of Texas School of Dentistry where she completed Preceptorship in Oral Maxillofacial Radiology.

Her passion for Prosthodontics led her to complete Preceptorship in Prosthodontics. She completed her post-graduation with a Master of Science in Dentistry and a certificate in Prosthodontics from University of Texas School of Dentistry, Houston. Dr. Uchil has a specialty license to practice Prosthodontics in the State of Michigan.
